Megalabs    felix    CuraScribe

### End-to-end Product Development

Leverage our team's full-cycle product development expertise to build your next healthcare innovation. We can help you at any stage of the process, from product discovery to the application's design and development.

💬 Ideal for companies without an innovation department and early stage start-ups.

### Scale Your Team

Support your in-house team with on-demand developers, product designers, and QA engineers, experienced in the healthcare industry. Our talent will become a part of your team as remote teammates when you need an extra hand.
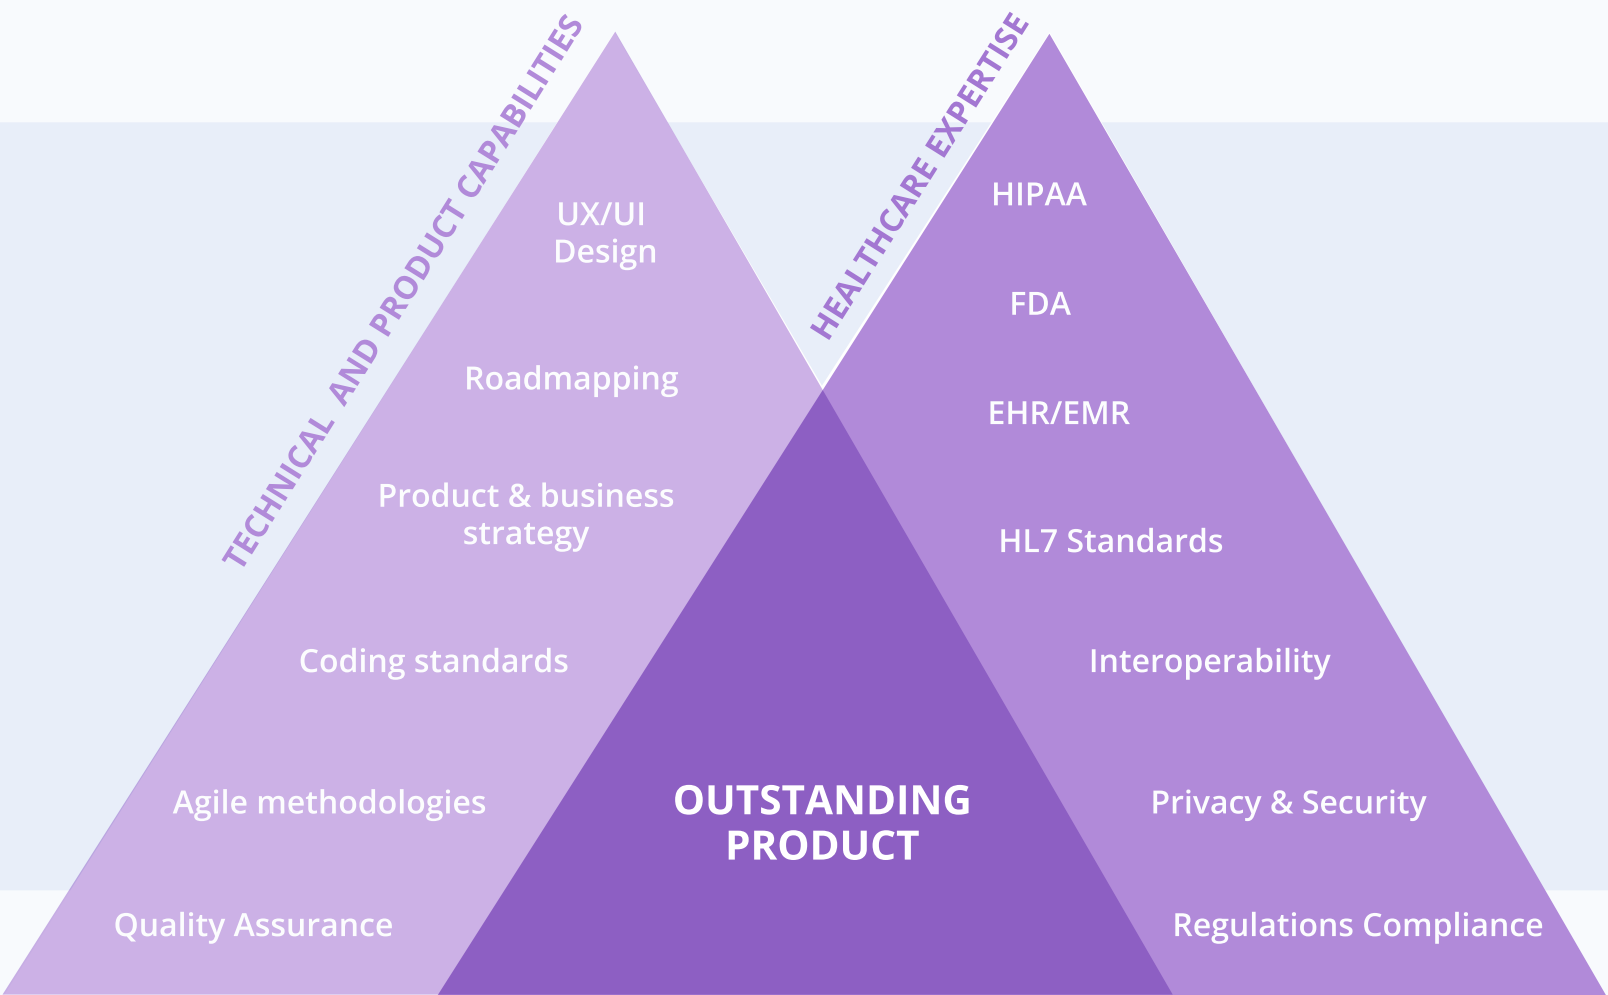

💬 Ideal for startups that need an extra hand with development.

"One of the things that have impressed me the most is Light-it's willingness to listen to what we have in mind for our product."
